SUMMARY

Accomplished leader within the fields of video & audio production, creative direction, live A/V reinforcement & installed systems design and implementation. Successful background in team leadership & management, including policy design, operations oversight and the ability to direct others in a supportive and cooperative environment. Highly organized and quite accustomed to generating and maintaining records and reports, recruiting highly skilled personnel, securing equipment and supplies, and assisting with the design of administrative policies and regulations. I've enjoyed the opportunity to lead several differing operations over the years, enabling me to develop strong leadership abilities along with creative direction within live event support, installed systems implementation, print design, web development, video production & daily operations.
